

Keys, cards and remote controls

COMBINED REMOTE CONTROL 433 MHZ - 125 KHZ

125 kHz
433 MHz

REF : 1104/5

- Dimensions (L X H X D): 79x38 x12mm
- Power supply : flat lithium battery 3V
- Engraving of a 8 digit alphanumerical number
- Average life of the battery: 22000 manipulations
- IP-54 rated
- Operating Temperature: -10 ° C to +60°C

Thanks to the integrated proximity and four buttons, the remote control is adapted to many situations. It is no longer necessary to have a remote plus a key, for example, a button can control a gate, the seconde ones manages the garage door and the proximity is used for pedestrian access.

The remote controls are designed to last thanks to a metal eyelet for key ring, the engraving of the serial number on a recessed area and IP54 certification.

The remotes have a metal eyelet to be placed on a key ring. It contains a code of 8 hexadecimal words which can not be modified. The uniqueness of the remote control is guaranteed. The code is written to simplify programming and identification.
