SERVER FOR FACE RECOGNITION, IP

Face recognition server dedicated to the IP door entry monitor system. Compatible with ultra porter switchboard UT8020 and EU8020, supports a database of up to 20.000 users, 8 external units, and can recognise up to 10 people at once. Users can be associated with various external units and an event log ensures availability of real-time information for access requests with face recognition and the corresponding result.
