

7Stelle

YOU HAVE NEVER SEEN SUCH AN AMAZING A DOOR ENTRY MONITOR.

7STELLE. THE NEW DOOR ENTRY MONITOR WITH A 7-INCH SCREEN.

7Stelle. The ultrathin hi-tech door entry monitor offering the comfort of touch screen commands on a 7-inch display.

7Stelle

A 7" MONITOR IN A UNIT MEASURING JUST 25 CM WIDE AND 2.8 CM DEEP

White, compact and elegant, 7Stelle has a widescreen colour display and buttons at the side for controlling operating mode preferences. Its graphics interface and function selection procedure were designed for extremely easy device management.

7Stelle helps you maximise the potential of your Comelit VIP system.

Choosing Comelit's 7Stelle and VIP System means having an innovative video entry phone system equipped with all the power and functions required of an all-round technological hub within the home offering control, communication and management.

→ **Customisation of melodies**
You can customise the call melody by selecting a polyphonic ringtone from the options listed in the directory, or by loading one onto the door entry monitor via the SD card.

← **Intercom function**
You can make an intercom call to any other user in the system or to a user listed in the directory.

← **Door entry monitor video memory**
You can activate (or deactivate) the video memory used to record videos (up to 10 seconds) originating from an external unit on receipt of a call.

↑ **Cameras - Actuators**
You can view a live stream from the system cameras, to make sure everything is under control.

↑ **Messages**
You can receive messages or alerts from the switchboard. The arrival of a new message is indicated visually by LEDs.

→ **Panic function**
7Stelle has a panic button which sends an alarm call to the switchboard in the event of an emergency.

The **Internet Protocol** system that enhances door entry monitor performance.

VIP technology expands the services and performance levels of Comelit products. A complete, easy to install and versatile system for all requirements. Ideal for new installations, or can be integrated into existing LANs. Serves an unlimited number of users, with simultaneous conversations and no distance limitations. A single backbone (specific or supported by existing LANs) to which video entry phone, anti-intruder, video surveillance, home automation and access control systems can be connected via an RJ45 plug. A system which is also open to the world of the Internet, allowing you to take full advantage of remote connection, remote assistance and web services.

A system which is easy to use and, most importantly, easy to install.

7Stelle

Art.6501
