

Integrated Access Control Solutions

Easikey 1000 is a simple and easy to use access control system that can control one or two doors (two readers), using Easi proximity readers. Installation is fast and simple.

The Easikey 1000 system can hold up to 1000 users and has eight time profiles. A facility to connect to a printer is provided as standard.

Reasons to choose Easikey 1000:

- Controls one or two doors
- Up to 1000 users
- Printer facility
- Eight time profiles
- Alarm relays and door monitoring
- Choice of 1.5 or 3 Amp power supply
- Pre-wired in metal case (optional)
- Five year guarantee against electronic failure
- Lifetime guarantee on PAC ID devices and readers

Easikey 1000

Features

The Easikey 1000 controller comes in an unboxed and boxed version. The boxed version comes in a robust metal enclosure pre-wired for quick and easy installation. The enclosure has a cut-out allowing access to a built-in membrane keypad and LED display, as well as a proximity administration reader. The Keypad has specific function keys for simple addition and deletion of ID devices and other programming activities.

The Easikey 1000 can store its last 1000 transactions (events) and is compatible with Easi readers, PAC PIN and PAC magnetic stripe readers. A PAC wiegand interface can also be connected to the Easikey 1000, allowing the use of a range of other reading technologies such as hands-free, wiegand and infra red. AVR (Automatic Vehicle Recognition) may also be used.

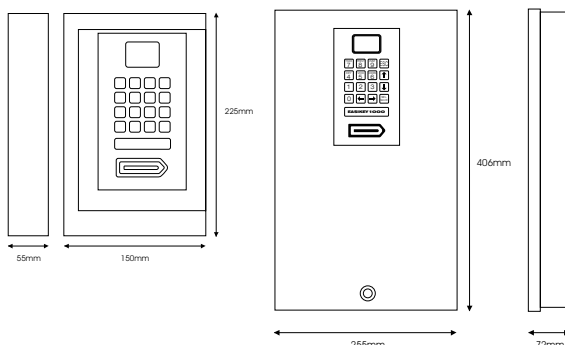

Special Features

Database copy facility

This facility allows you to copy the ID devices from one Easikey or Easikey 1000 controller to another. This is useful if you wish the same ID devices to go into more than one controller. A portable download kit can be purchased for this task.

Switch feature

You can also use Easikey and Easikey 1000 controllers as a secure switch. This feature can be used to turn many types of equipment on and off.

Specification

Dimensions:

Unboxed - H: 225mm L: 150mm D: 55mm
Boxed (with cut-out) - H: 406mm L: 255mm D: 72mm
Boxed (without cut-out) - H: 420mm L: 350mm D: 100mm

Weight:

Unboxed Easikey 1000 - 3kg
Boxed Easikey 1000 - 4kg

Operating Temperature:

0° to +50°C (-59° to 122°F)

Ancillary Products:

Ancillary Products:	Part No.
Easi mullion reader - black	20377
Easi mullion reader - white	20387
Easi vandal resistant reader - s.steel	20378
Easi vandal resistant reader - brass	20388
Easi panel mount reader	20421

Packaging:

Pre-packed

Part Numbers:

21446 - unboxed Easikey 1000
21450 - 1.5 Amp boxed Easikey 1000 (without cut-out)
21453 - 1.5 Amp boxed Easikey 1000 (with cut-out)
21448 - 3 Amp boxed Easikey 1000 (without cut-out)
21452 - 3 Amp boxed Easikey 1000 (with cut-out)
