

REF. 04915 COLOUR 199 DIGITAL CITY KIT

For installations of more than 25 homes we recommended 199 VIDEO KITS that include: video outdoor panel with keypad and flush-mounted box, power supply (up to 40 homes). A power supply (ref.4830) is required every 40 additional monitors.

The call can be made very simply by dialling the number of the door on a telephone-type keypad. The keypad can also open the door by entering a code which has been pre-programmed.

The panel incorporates an electronic directory containing information on residents names and their door numbers, with search facility.
