

REF. 04916 199 VOX DIGITAL CITY KIT

For buildings of more than 25 homes we recommend the VOX 199 KITS, which include: complete door entry panel with keypad, flush box and power supply for up to 80 homes. It is necessary to add 1 power supply (ref.4830) for every 80 additional telephones.

The house call is made by keying in the door number (or assigned code) on the outdoor panel keypad.

The keypad also lets you open the door by entering a code.
The panel incorporates an electronic directory containing information on residents names and their door numbers, with search facility.
