Datasheet

CKTRAKL - CENTAUR Tracker LCD Keypad Module

Product Description

Designed to work specifically with Pro-Report's time and attendance feature, the CK-TRAK-L monitors and displays a card user's "Punch In" and "Punch Out" time, as well as displaying the current date and time.

When an access card is presented to a reader (door) assigned to the Tracker, the keypad will display the card number as well as a confirmation of a valid punch in or punch out.When used with Anti-passback applications, the keypad will also display an error if the card user has already punched in or out. The backlit display features adjustable contrast and is available in different languages.

Centaur
INTEGRATED ACCESS CONTROL

Key Features

- Connect up to 8 modules on the E-bus
