MDS CITY CLASSIC DIGITIZER MODULE

Reference

2440

EAN

8424299024400

Description.

Description

Module to incorporate in panels with viewer.

Digitizing module for incorporation in MDS City door entry/video entry panels.

Lets you detect the pressing of the panel call button and send the corresponding code. Also used to activate/deactivate the panel amplifier and camera (if video), in addition to the video switcher in the installation (if there is one). If the channel is occupied it lights up a STOP LED and does not allow use of the panel for a minimum conversation time.

Requires a viewer in the panel for location.
