Description.

Description

For iLOFT Phones

Stainless steel support that includes protection on the seating surface with four self-adhesive feet, which prevent slipping and absorb small surface irregularities.

Available with mounting accessories.

Installation and assembly steps:

- Mount the phone base on the stand and secure it with the supplied screws.
- In the VDS system, connect the power strips and the cable according to the color code of the Rosette or Junction Box on the wall and the installation.
- In IP installations, connect it using the network cable, without protection on the RJ45 connectors to facilitate fastening.
- After connection with your corresponding system, mount the front of the phone.
- Place the adhesive clamp to guide the cable.

Materials included:

- Stainless steel support.
- Four M3 x 5 screws.
- 8-way telephone cord 2 meters white.
- White Front Surface Rosette or Connection Box (8 terminals).

- Screws and plugs for mounting rosette or junction box.
- Adhesive clamp for cable guidance.
- Assembly instructions.
