CITY DOUBLE ANGLE BOX S6

Reference

8394

EAN

8424299083940

Description.

Description

Necessary when the panel must be installed in a point of difficult accessibility, for example, behind a fence.

It is also useful to be able to focus the camera better, in places where the panel is installed in such a way that the person who has called is out of its field of vision.

They are made of 2mm thick anodized aluminum.

As it is possible to combine two plates, as long as they are from the same series, there are 3 series of double angular complements available, select the angular complement of the necessary series, depending on the case.

Angular Complement Versions for 2 plates according to available size:

-S5.

-S6.

-S7.

Angle with respect to the wall: 25°

Any other double or triple angle plug must be requested as a special order.
