#### Description

The Duox Plus display module allows the search and display of the list of neighbours (electronic directory) by means of the navigation buttons (arrow keys), as well as informing about the communication status.

The call to apartments can be made in two ways:

- by entering the corresponding code assigned to the property + the "bell" key.
- by searching in the electronic directory the user's name (navigation buttons) and once found by pressing the "bell" key.

The navigation buttons also allow you to move through the programming menu.
