F09785

PROXIMITY READER NEW MARINE SET

Reference

9785

EAN

8424299097855

Description.

Description

The set includes:

- EM technology proximity module (125KHz)
- Visor with proximity screen printing
- Steel brackets for fixing
- Hexagonal threaded clamping nuts

The reader:

- Allows the door to be opened by bringing a proximity card or key fob (ref. 23361 or ref. 4515) close to the door. Only authorised cards or key fobs will activate the device. No physical contact is required.
- By means of a dipswitch configuration (SW2) incorporated in the rear part, it can operate in an autonomous or centralized system.

Configuration as STANDALONE.

- Capacity of up to 400 user cards or keychains.
- Reader and controller integrated in the same module.

Configuration as CENTRALIZED MDS-AC Plus.

- Proximity reader with capacity up to:
 - 1020 user cards/keychains with the MDS central unit (ref. 2405).
 - 2048 user cards/keychains with the AC Plus central unit (ref. 4410).
- Reader and controller integrated in the same module.

Configuration as CENTRALIZED with Wiegand 26 or Data/Clock protocol.

- When starting the reader if it is in mode:
 - Wiegand-26, the "+" LED will light up for 1 second.
 - Data/Clock, the "-" LED will light up for 1 second.
- Proximity reader with capacity up to:
 - 1020 user cards/keychains with the MDS central unit (ref. 2405).
 - 2048 user cards/keychains with the AC Plus central unit (ref. 4410).
- Requires a door controller (ref. 4420) for connection and operation.
- Acoustic and visual confirmation through LEDs indicating acceptance or rejection of the card presented.
- Access control module, to be incorporated into MARINE door entry/video entry panels.
- Recommended for indoor and outdoor use.
