

Fermax presents the new VEO-XL WIFI DUOX PLUS kits for single-family houses, offices and businesses .

The kits include all the necessary materials for its installation: CITYLINE entrance panel, VEO-XL WIFI monitor and power supply.

In addition, they work with DUOX PLUS, a fully digital door entry and video door entry system and technology on two non-polarized wires, which simplifies their installation while maintaining the highest quality in the product and design, They include the VEO-XL WIFI DUOX PLUS monitor as standard, equipped with a Wi-Fi connection that allows calls to be forwarded to mobile devices .

Thanks to the Fermax BLUE application , available for free in the Play Store and App Store, the video door entry functions can be managed directly from a mobile or tablet, to connect to your home, wherever you are. By connecting your WiFi DUOX PLUS monitors with the BLUE app, a range of possibilities will open up. Of all of them we highlight two that will be key: Divert calls from the video door entry unit to your mobile and open the door to the house from a distance.

They also come as a standard with the Photocaller feature, which automatically captures an image of the caller. If the user decides to activate this function, the monitor stores up to 150 images, indicating the date and time when they were

ACCESSORIES

8851 CITY FLUSH BOX S1

In order to install a panel it is necessary to place a box in the wall where we will subsequently fix the panel.

7061 CITY S1 SURFACE BOX

Surface box for those cases in which it is not possible to make a hole on the wall.

8378 CITY SINGLE ANGLE BOX S1

Necessary when the panel must be fitted in a point hard to access, for example behind a gate.

8251 CITYLINE DECORATIVE FRAME S1

The trim frames enable old intercom and video door panels to be replaced with new models in the CITYLINE and CITY CLASSIC series, covering the hole and integrating perfectly with the panel finish.
