MTM VR

THE RANGE OF EXTERNAL MODULAR ENTRY PANELS

A key feature of MTM VR is the durability and strength of the materials. The modular entry panel does not go unnoticed. It uses the same electronic modules and easy to fit functionality as the standard MTM however, it uses an IK09 rated vandal resistant Zamak composite with crush proof buttons and anti-tamper screws.

IK09

DIGITAL DIALING

The digital display allows a phone book with up to 7200 names to be displayed. During the programming phase you can choose the most appropriate search mode based on the number of users, a scrolling list or an alphabetical block search.

BUTTON COMPOSITION

On the call module, you can customise the amount of buttons required. Using a variety of modular front plates you can achieve maximum button composition flexibility. Available with 2, 3, 4 and 8 button front plates.
ACCESS CONTROL

The MTM range also includes 2 modules specifically for access control, one that is keypad operated and the other RDIF reader operated. Both modules are fitted with 2 on-board relay switches and 2 inputs for directly activating the relay switches.

VISUAL ANGLE

IP360 — 95° / 130°

X1 · XiP — 82° / 100°

FEATURES

- Zamak finish
- Direct connection to an analogue camera (X1 audio)
- High efficiency illuminator with anti-glare diffuser
- Sound and visual alerts
- HD resolution and High Dynamic Range (HDR) technology
- Blue or white backlit tag holders with brightness settings
- MiniUSB front panel for firmware updating and programming
- Up to 98 button calls and unlimited digital calls
