CITYMAX Kits

FERMAX

DUOX^{plus}
It takes 2 to connect

The world's first 100%
digital Smart System in
2 wires

DUOX PLUS is the digital technology that simplifies installations, exceeds expectations and enables us to connect people and homes with the world.

It offers **higher performance and increased capacity, is faster and more user-friendly**. Above all, it brings us to a new dimension where all information (audio, video and data) is digital and transported using only two non-polarised wires.

VIDEO DOOR ENTRY PANELS

SKYLINE is a modular and versatile panel providing total freedom to create any combination of components. It consists of different modules: 8 frames of different dimensions, audio-video modules, push buttons modules, digital modules, access control readers, information modules and other accessories.

MARINE panel is a vandal-proof door entry system made of 316L specification high-grade stainless steel.

Digital **Skyline**
with Proximity

12 Way **Skyline**

8 Way **Skyline**
with Keypad

Digital **Marine**
with Proximity

CHOICE OF MONITOR

VEO and **VEO-XS** 4.3" colour monitors and **VEO-XL** 7" colour monitors, made from high-impact ABS plastic. Include automatic capture of images with the call (memory up to 150 photos), adjustment of contrast, brightness, colour, audio volume and call tone volume, "do not disturb" function, doorbell, date and time settings, silicone door opener buttons to activate the door opener, access the on-screen OSD menu, activate the outdoor panel camera or any another additional function that can be configured as for example activate a second access, courtesy light, etc. Available in white and surface installation.

VEO-XL monitor
Hands free

VEO monitor
With handset

VEO-XS monitor
Hands free

CALL DIVERT TO MOBILE/TABLET

All WiFi monitors include a sticker with a QR code so that end-users can download the Blue by Fermax app. They can easily pair their monitor and enjoy the call divert to mobile.

Free application **BLUE BY FERMAX**   

With the DUOX PLUS WiFi monitors, the **call divert to mobile phones comes as standard**.

It allows to **establish communication with the outdoor panels and open the door**.

It allows to **see who is calling** before answering and **open a second auxiliary door**.

Automatic image capture of the caller and their **register in the call log**.

Up to **8 smartphones/tablets in the same apartment** can receive the call simultaneously.

It is as simple as downloading the **BLUE by FERMAX** app from Google Play or the Apple Store.

VEO, VEO-XS AND VEO-XL WIFI MONITORS

DUOX PLUS VEO, VEO-XS and VEO-XL WiFi monitors are equipped with **WiFi connection that allows to forward calls to mobile devices**. Thanks to **Fermax BLUE app**, the functions of the video door phone and much more can be managed from a smartphone or a tablet.

SMART SPEAKERS

NEW

By connecting to **Alexa and Google Home**, you can receive call notifications from the video intercom on a smart speaker or display.

You can also use your voice to open the door, either with **smart speakers or displays or with Siri** from your iOS device (iPhone, iPad or Apple Watch).

7 DIFFERENT DUOX PLUS VIDEO KIT RANGE FROM 1 TO 12 APARTMENTS

1 reference = 1 kit

The kit reference includes all the material needed for the installation: panel, back box, riser elements, VEO monitor and connector.

THE FERMAX QUALITY ASSURANCE

As a world-class manufacturer of over 60 years standing, Fermax assures the quality of all of the products and services it offers to wholesalers and installers in the UK.

Backed by ISO9001 and 140001 quality management accreditations as well as compliance with all relevant EN electrical and environmental standards in the sector, **Fermax offers a full 2-year manufacturer's warranty on all its products.** Awarded the European Recognised for Excellence EFQM model, Fermax is committed to offering the highest standards of products and services.

If for any reason you suspect that we have supplied you with a defective item, we will undertake to provide you with a free of charge replacement should the product be found to be genuinely defective.

Please contact Fermax UK for a copy of our returns policy.

Free Training

We are pleased to offer free training at our Laindon, Essex centre to any installer referred to us by an approved Fermax wholesaler or stockist.

Similarly, we offer free product and system training to all Fermax stockists or wholesalers applying to be accredited as an authorised Fermax distributor.

Site Survey and System Design

We appreciate that specifying the right system for the application is key to business as an installer. Our trained representatives and technical support team will work with you to review client needs and design the right solution.

Contact Fermax UK or a Fermax approved distributor to arrange for a free site survey and technical review of your project.

Commissioning

Take the hassle and worry out of system installation and integration especially if you are working to a tight deadline.

Fermax engineers are available to ensure that your system installation is functioning properly to meet your client needs prior to hand-over.

Consult Fermax UK about how you can save on time and cost by using the Fermax Commissioning Service.

Become an Accredited Fermax Installer

Grow your business as an accredited Fermax Installer either with new installations or upgrades to existing sites. Fermax has 1000s of installations in the UK over many years. You can grow your business by qualifying for site maintenance and support leads.

Service and Support

As part of a worldwide manufacturing group Fermax maintains extensive stocks of product at its UK warehouse facility. Orders placed before 3.00 pm, will be delivered the following day and can be delivered to site if required.

The Fermax technical help desk and engineering team is available to assist with installations, system design and product selection as well as technical trouble shooting.
