

STAINLESS STEEL POSTS

This 1200mm high post is manufactured from BS 304 stainless steel which is durable and weather resistant.

The post has a 45 degree angled section with a stainless steel mounting plate. This makes it ideal for mounting an entrance panel for single height vehicle access use at car park entrance or for wheelchair access.

The mounting/adapter plate can be changed to suit different panel sizes, making it compatible for mounting most popular entrance panels.

- Stainless Steel
- 1200 mm in height
- Weather resistant
- 45 degree angle
- Ideal for wheelchair and car access
