

Radio Controls Receivers

Range : Erone®

A complete range of radio control and switching products to provide wire-free control of gates, barriers, doors, lights etc. A high quality, high performance range manufactured by Elpro Innotek, a CDVI Group company.

The receiver range is compatible with all our fixed or rolling-code transmitters. From the entry level "Nano" single channel receiver with 85 user memory through to the multiuser receiver with 1600 user memory, the range includes external and mains rated receivers.

Standard range is up to 200 metres, this can be enhanced by installing the optional SEA433 tuned aerial.

For connection/compatibility of user identification to access control systems, we provide receivers which operate a Wiegand 26-bit technology.

SEL2641R433NN (NANO)
(1 channel)
50 x 32 x 20mm

RX26-433I/RX39-433
(2 channel)
105 x 45 x 28mm

SELWR433
(signal converter to Wiegand)
105 x 45 x 28mm

SEA433
Tuned aerial

RX26-433-C4V
(2 & 4 channel available)
140 x 115 x 53mm

RX26-Z1
(1, 2 & 4 channel available)
80 x 80 x 50mm

Technical specifications

Frequency:	433.92MHz
Modulation:	ASK
Encoding:	Fixed (TX39E2/E4) Keeloq hopping code
Voltage:	12/24V ac/dc, internal models 12/24Vac, 240Vac external models
Range:	Up to 200 metres
Memory:	SEL2641R433NN - 85 users RX26-433I - 85 users RX39-433 - unlimited SELWR433 - unlimited RX26-433-CnV - 85 users RX26-Zn - 85 users

Key features

- Full range of internal & external
- Rolling code & fixed code options
- 1, 2 & 4 channel models
- Wire-free applications
- Up to 200 metres range
- Cost-effective switching
- Internal and external use
- 2 year warranty
