

REF. 01501 2 WAY AUDIO MINI KIT 4+N

SINGLE FAMILY HOUSES & TERTIARY

MINI is the Fermax extra slim panel with minimum dimensions (100 x 166 mm), manufactured in aluminum with highly weather resistant materials.
MINI is available in surface and flush mounted, depending on the desired installation.

The Audio MINI kits are available in 1 and 2 ways, in 4+N technology.
Power Supply: 12 Vac.

The MINI kits include all the necessary material for a complete installation:
Mini outdoor panel (surface or flush mounted with its corresponding box), white CITYMAX telephone for indoors and power supply.

The MINI kits allow the installation of 1 extra telephone without an additional power supply. A second outdoor panel can be installed for the garage or for a second entry

door.
