A world of security at your fingertips...

# GDX Video, Audio Telephone and Apartment Stations

## Colour Video Handset

The GDX colour video handset is manufactured in white high impact ABS plastic. The handset has a 4" TFT high brilliance viewing screen-providing wide-angle viewing and high definition images. The screen has a brightness and contrast control, allowing you to view crisp images of visitors even if you do not wish to communicate with them and clear speech. (Video handset has all features of audio handset).

## B/W Video Handset

The GDX black & white video handset is manufactured in white high impact ABS plastic. The handset has a 4" CRT module and has brightness and contrast controls that provide sharp clear black & white images, which ensures you will enjoy the best visual communication before entry permission. (Video handset has all features of audio handset).

## Video Apartment Station

The GDX colour video apartment station is manufactured in white high impact ABS plastic. The hands free video monitor has a 4" wide angle-viewing screen with brightness and colour controls providing high definition bright crystal images. The specially selected speaker & microphone produce clarity of speech. (Video apartment station has all the features of the audio handset).

## Audio Apartment Station

The GDX hands free audio apartment station is manufactured in white high impact ABS plastic. The duplex monitor specially selected speaker & microphone provide crystal clear handsfree two-way speech. (Audio apartment station has all the features of audio telephone handset).

## Audio Handset

The GDX audio handset is manufactured in white high impact ABS plastic. It also has the following features:

- Crystal duplex speech.
- LED indication when privacy selected.
- LED information for duration of call.
- LED indication if entrance door left open.
- Enter button has a raised nodule for the blind and partially sighted to locate correct function.

GDX Technologies Ltd is continuously working to develop and improve products and as such reserve the right to change the specification without notice. Full specification of all our systems is available on request.

Telephone handset & Apartment stations can be mixed in each project.
