

# LITHOS TO PERLA

SYSTEM TYPE

AUDIO <sup>bpt</sup>  
SYSTEM

## LITHOS PANEL

Lithos is an entry panel created by BPT for the X1 two-wire system. Compact and ultraslim (protruding just 30 mm from the wall), Lithos will blend perfectly into any setting, thanks to its soft lines and elegant brushed stainless steel finish. Lithos can be fitted with single or double push buttons for single-family or two family systems, and features the intercom function as standard without the need for supplementary power supply\*. In addition, it can be used to create systems designed to handle up to four calls. Lithos can be installed wall-mounted or recessed.

\*Dependent on handset type

- Brushed stainless steel faceplate
- IP54 rated
- Single or double push buttons

## PERLA RECEIVER

The Perla audio receiver installs easily and quickly, thanks to its compact size and adjustable mounting bracket included in the package, which can be used with a standard single gang back box if required. Please note if a back box is not used, suitable provision for excess cable must be made on the mounting surface.

- Fusion black or ice white colours
- Full duplex hands-free
- Door release
