

Integrated Access Control Solutions

At PAC we have a policy of continual improvement of our products, so the release of a new token housing for our PAC/Easikey range of readers has incorporated several key improvements. The new tokens are easier to handle and have distinctive coloured clips to differentiate tokens; the clips are available in seven different colours. The new shape tokens are fully interchangeable with our existing token range.

As an alternative to the traditional door key, PAC's proximity ID tokens are used by millions of people as an easy and reliable means of gaining access to their homes, communal entrances, places of work and other secured access points such as carpark barriers and turnstiles.

PAC tokens can be programmed into any of PAC's residential or commercial access control systems so that the user's movement can be monitored and the building protected. The token need only be held near a PAC door reader for the code to be read (access will be granted or denied within 0.5 of a second). And of course, if a PAC token is lost or stolen, it is easily replaced. Lost tokens can be deleted from the access control system.

Reasons to choose PAC Proximity Tokens:

- Lightweight, ergonomic design
- Each token has a unique ID code
- Tokens can be colour coded for easy recognition
- Easy to use, non contact proximity door reader technology
- Cost effective alternative to the door key
- Fits easily onto a key ring
- Durable and robust (no batteries)
- Completely sealed and IP67 rated for everyday use
- Lifetime guarantee against electronic failure

PAC Proximity Token

PAC Proximity Token

Features

The PAC token is manufactured from UL rated ABS plastic with a metal keyring rivet making it both durable and robust. It requires no batteries and is uniquely coded offering over 64 billion code combinations for complete security.

The PAC token can be carried on a keyring and can easily fit into a pocket. Each token carries a lifetime warranty against failure.

Specification

Maximum PAC Token Reading Ranges:

PAC standard plus reader	5cm
PAC slimline reader	2.5cm
PAC vandal resistant reader	1cm
PAC panel mount reader	1cm
PAC flush mount PIN reader	1.5cm
PAC surface mount PIN reader	1.5cm

PAC Token Accessories

	Part No.
Heavy duty badge/token reel	40068
30" silver chain	40029

Dimensions:

H: 62mm W: 28mm D: 5.5mm

Weight:

5.89g

IP Rating:
IP67

Operating Temperature:
-30° to 50°C

Packaging:

Pre-packed and supplied in packs of ten.

Part Number:

- 21020 - PAC token (with black PAC clip)
- 20204 - PAC token (without clip)
- 40101 - PAC logo coloured clip - red (bag of 10)
- 40102 - PAC logo coloured clip - green (bag of 10)
- 40103 - PAC logo coloured clip - blue (bag of 10)
- 40104 - PAC logo coloured clip - yellow (bag of 10)
- 40105 - PAC logo coloured clip - white (bag of 10)
- 40106 - PAC logo coloured clip - black (bag of 10)
- 40108 - PAC logo coloured clip - orange (bag of 10)
- 40109 - PAC logo coloured clip - turquoise (bag of 10)
