DESIGNED FOR THE MODERN HOME

The LOFT monitor is manufactured in high impact ABS plastic, with a textured finish for easy cleaning, as well as ultraviolet protection for better light resistance.

It's surface mounted assembly allows to cover the gap left by the old telephone, with no need to make a hole in the wall.

A magnet located in the handset allows to hang it safely.

FEATURES

When a call is received, the image comes up on the monitor automatically. When you pick up, you can hold a conversation with the visitor.

It comes as standard with: Call to guard and door opener button ; autostart of main camera ; button to activate additional functions and call volume, brightness, contrast and colour control.
