FERMAX

BUILDING COMMUNICATIONS

A GREAT FAMILY BRAND

FERMAX is a Spanish family business based in Valencia, Spain.

The company, founded by Mr. Fernando Maestre in 1949, is specialized in designing communication and access control systems, both digital and analogue, enjoying a prominent position among the world leading brands.

The company has developed and focused on the values that have made it a global success:

- Cutting-edge technology.
- Trend setting design.
- Highest quality standards.
- Innovation.
- Customer focus.
- Family business values.
- Specialization values.

ALWAYS CLOSE TO OUR CUSTOMERS

FERMAX currently has subsidiaries and representative offices in UK, Spain, France, China, India, Dubai, Singapore, Polska, Russia, Colombia, Vietnam, Bahrain, USA, Turkey and Morocco.

Our products are also sold in another 70 countries.

Our customers are professionals with whom we establish long lasting bonds based on competitive pricing, excellent service, free unlimited technical assistance service and an exceptional product.

FERMAX UK Ltd, 17 YEARS

FERMAX was established in the UK in the early 80's, becoming one of the first audio & video door entry companies in the country, recognized for the quality of its products.

In 1997, after years of great success in the UK, FERMAX decided to open a subsidiary office based in Essex. FERMAX UK Ltd then took over the distribution of Fermax products, and in the following 16 years, has become one of the leading brands in the UK door entry market.

OUR BUSINESS CULTURE

Our determination to continue to be an excellent company and one of the leading businesses in our sector worldwide makes us continuously strive to achieve the highest quality standards, both in our products and processes.

CALLING FOR A NEW GENERATION

Smile is the new hands-free video door entry experience.

Compact, extra slim with a unique design. An advanced monitor with high-performance features and easy of use, thanks to its user friendly interface which incorporates the latest technologies.

7" version

A new 10w profile monitor concept that can be surface or flush mounted.

FERMAX

Technology has never been so easy.

- Colour TFT screen available in 7" or 3,5".
- Its **OSD menu** allows the user to scroll through the screen using **intuitive graphic icons**.
- Its **4 capacitive pushbuttons** enable communication with the outdoor panel and give direct access to pre-programmed functions.
- A keypad with 4 function buttons that remain invisible until the user enables them allowing access to direct functions.
- VDS technology.

3,5" version

Video functions

Lift control

Panic call

Customizable

CCTV camera

Smile is a creation of Ramón Benedito, FERMAX Worldwide Design Partner since 1975.

NEW

smile

NOW IN COLOURS

For homes with a personal style, the 7" TFT screen Smile monitor is designed in different colors: **WHITE, BLACK and GREY** to create a unique environment.

7" BLACK

7" TOTAL WHITE

7" SILVER

FERMAX

FRAMES

The range is completed with the **7" decorative frames** for the flush-mounted versions in **WHITE, BLACK** and **SILVER**.

3,5" TOTAL WHITE

3,5" AVAILABLE AS WELL IN WHITE

Because there are still who prefer the essence of the details, we present you the Smile monitor with a **3,5" TFT screen with white profile and monochromatic pushbuttons.**

A monitor with reduced dimensions which harbours in its inside Smile latest technology

NEW

DUOX

CHANGES EVERYTHING

DUOX is the first FERMAX **completely digital system** in two non-polarised wires audio technology. It's the most advanced technological system which allows a quick installation with only two wires.

A technological revolution in FERMAX, **DUOX changes everything.**

FLE
XIBI
LITY

And this is how DUOX achieves its particular transformation:

Increases the capacities of any project.

Simplifies the installation and programming works.

Allows the use of any cable.

Makes future modifications and extensions of the installation easier.

NEW

PERFECTLY INTEGRATED TECHNOLOGY

LYNX is the most advanced technological system from FERMAX, based on a complete **TCP/IP** system, which allows the user to **manage the communication, security and comfort** of the most prestigious residential developments all over the world. LYNX sets new standards for processing power and performance for video door entry system equipments allowing:

A virtually unlimited number of monitors.

Unlimited distances from end to end of an installation.

Multichannel for conversations and data flows, with unlimited capacity.

VIVO

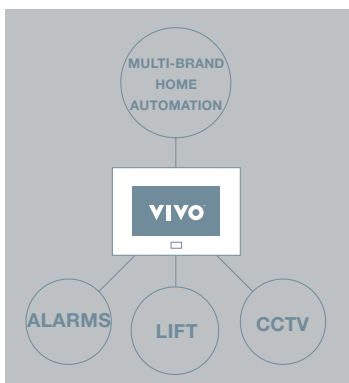

For LYNX, FERMAX has created **VIVO**, the video door entry monitor with capacitive touch screen which becomes **the most technological interface for the modern apartment**.

FERMAX

LYNX, a property Management Unit to secure residents' comfort and well being.

VIVO is a tribute to cutting edge technology with the style.

VIVO+LYNX, perfect synergy.

DUOX BUILDING KITS UP TO 24 APARTMENTS

INSTALLATION: 2 NON POLARIZED WIRES

DUOX-CITY audio kits 1 to 24 apartments incorporate FERMAX latest digital technology. DUOX is the new digital system representing an innovative and technological leap in the intercom market. It only requires two non polarized wires for power supply, audio and data transmission. With DUOX we improve our technology whilst retaining the maximum quality of the product and design, making the installation of door entry systems even easier.

Basic installation

KIT EXTENSIONS AND ACCESSORIES:

- Apartment: up to 3 telephones (ref.3420).

FERMAX

PANELS

SKYLINE
MARINE

SKYLINE

INFINITE POSSIBILITIES

The language from FERMAX.

SKYLINE is the only system able to respond to all market needs. Integrating **VIDEO DOOR ENTRY, ACCESS CONTROL AND INFORMATION DISPLAYS** in the same unit. Providing TOTAL CREATIVE FREEDOM through its versatility and modular design.

FERMAX guarantees the immediate supply of SKYLINE products with exception of stock breaks.

COMBINES

SKYLINE consists of 28 different modules: 8 frames of different dimensions, audio-video modules, pushbutton modules, digital modules, access control readers, information modules and other accessories.

ENHANCES

SKYLINE modules include the most cutting-edge technologies and functionalities, such as the [OneToOne module](#).

The modules are smart system linked, facilitating their repair and maintenance, as well as the subsequent inclusion of more cutting-edge equipment or new modules.

RESISTS

SKYLINE manufacturing materials – anodized aluminium profile, chromed zamak pushbuttons and reinforcements, polycarbonate transparent elements, stainless steel inner grids, etc - are chosen for their beauty and maximum resistance to bad weather conditions.

SKYLINE PANEL

PROJECT

SKYLINE consists of 8 different-sized frames where different modules can easily be fitted. Modules come in 2 sizes, designated V and W (W is twice the size of V).

The audio and video modules are available in all FERMAX technologies. Once technology has been selected, the use of these modules with the appropriate frames, allows to set up the panel necessary for any installation.

SKYLINE

INFINITE POSSIBILITIES

COMBINATIONS

The combination of frames and modules depends on the number of apartments at the building and the accessories needed.

There are two module sizes: **V** and **W** (**W** is twice the size of **V**).

V = 105,2 x 47,5 mm

W = 105,2 x 95 mm

Frames are designated according to their V module inclusion capacity.

ASSEMBLY

The module-frame clip-on assembly system is very simple and effective.

The modules fit perfectly into the profile. Watertight tapes prevent water and dirt to get in.

Once the panel is assembled, the different modules are connected to each other.

The final result is a compact and robust equipment set, just like a monoblock panel (IP43 IK7).

The pushbutton contacts and digital keypad are watertight, assuring their operation and reliability. Proven in laboratory trials to be able to resist 100,000 pushes in 48 hours.

Dimensions: (width) x (height) x (depth) mm.

TECHNICAL FEATURES

VDS VIDEO PANEL WITH PUSHBUTTONS

Zamak injected profile tops.

Sliding logo. Concealed screw bolt fixes panel to flush box.

Compact audio and video module. Frontal module in aluminium and inner stainless steel grid.

Extruded aluminium curved-convex. Anodized finish.

Zamak injected call button with chromed finish.

Polycarbonate card slot. Frontal card slot access. Outdoor resistant labels.

Concealed screw bolt fixes panel to flush box.

High power and performance **2W amplifier**. Elliptical loudspeaker.

CCD COLOUR camera and optical of 3,7mm. Lighting for night vision by LEDs.

Permanent card slot lighting by **low consumption LEDs**.

High sensitivity **electret microphone**.

REAR VIEW

Electronic circuit manufactured in SMD.

VDS connections:

- +,- Power supply 18Vdc.
- L Data
- V,M Video
- NC, NO, C Potential free relay contact.
- Door opening programmable timing.
- , BS Pushbutton to active lock from indoors.

Operating test connector:

audio, video and monitors programming.

Smart connection between modules. Extension call modules are not required.

Voice synthesizer as standard (32 languages). "The door is open. Please, close the door behind you".

Adjust of conversation volume control from monitor, outdoor panel and synthesizer message.

PAN&TILT of camera to adjust $\pm 10^\circ$.

Pushbutton with waterlight contacts. IP 66.

Able to resist 100.000 pushes in 48 hours.

Laterally folding hinges.

SKYLINE PANEL

ACCESSORIES

FLUSH BOX. Made of aluminium and zamak, with folding hinges.

SURFACE BOX. To facilitate the need when a hole in the wall isn't suitable for the flush mounted box.

HOOD. To protect the outdoor panel when due to its location it may be affected by external agents such as rain, snow, etc.

ANGULAR COMPLEMENT. Necessary when the panel must be fitted in a point hard to access, for example behind a gate.

Flush box

Surface box

Hood

Angular complement

MODULAR DECORATIVE FRAME*

In replacement applications, allows to cover up the hole left by the old panel.

It is also an aesthetic element.

DIGITAL MODULES

The **DISPLAY MODULE** allows a search through the list of residents and their allocated door codes (telephone book type). It indicates the communication status. The keys <> enable users to browse through the menu. Press  to call the apartment after keying the door number on the keypad.

7449	DUOX/VDS DIGITAL DISPLAY W
7451	MDS DIGITAL DISPLAY W
1623	LYNX DISPLAY W

The **KEYPAD MODULE** enables users to call the homes by keying the allocated door code. It also acts as an access control system, activating the door release when a given code is entered (depending on the technology).

7447	DUOX/VDS/MDS DIGITAL KEYPAD W
7439	DUOX/VDS/MDS DIRECT KEYPAD W
7457	LYNX DIRECT KEYPAD W

7460	MDS DIGITISER V
------	-----------------

Necessary in MDS-CITY and MDS DIRECT panel combinations. OneToOne functions included.

INFORMATIVE MODULES AND ACCESSORIES

7448	ONE-TO-ONE MODULE V
------	---------------------

Is a device that displays door entry operation using illuminated pictograms: calling, in call, door open or busy channel. Facilitates use for people with hearing impairments.

7445	CARDHOLDER W
7444	CARDHOLDER V

Informative cardholder with back lighting to personalise the building, indicate the address or the residents door codes directory. Needed in codified digital panels.

7443	METALLIC COMPLEMENT W
7442	METALLIC COMPLEMENT V

Made in the same material as the aluminium panels. Allows to cover gaps in the panel for future module installations.

ACCESS CONTROL MODULES

For more information, see "Access control" section.

7438 MEMOKEY W

Backlit stand-alone keypad with signal LEDs. Activates the door release when a code with up to 6 digits is entered. Admits up to 100 different codes that can activate 1 or 2 relays. Power supply 12Vac/Vdc.

ref.7438

7453 AC KEYPAD W

For centralized systems with MDS Central Unit (ref.2405) or Centralised Access Control (ref.4410).

7457 AC SKYLINE DIRECT KEYPAD W

For access control combinations: keypad with proximity.

The following SKYLINE access control modules can be set up in stand-alone, centralized mode (MDS central unit ref.2405) or AC (Central Unit ref.4410). The number of users in centralized mode depends on the central unit. (See Access Control section).

7440 PROXIMITY READER V

Door opens when a proximity card is shown. Only authorized cards will activate the device. No physical contact is necessary. Capacity: Up to 400 cards (stand-alone), 1.020 cards (centralized with MDS central unit) or 2.048 (centralized with access control Central Unit).

ref.23361

ref.44501

7441 BLUETOOTH READER V

Allows activation of the electric lock remotely by means of a mobile phone with built-in bluetooth wireless connection technology.

Can store up to 40 authorised telephones in stand-alone mode. The door opens automatically when detected, by key confirmation or entering a PIN code as a security mechanism. Bluetooth must be activated in order to receive opening and administration commands as well as being able to send the corresponding configuration commands.

SKYLINER
BE CREATIVE

Create your own SKYLINE, save the image and draw up a list of materials with SKYLINER at www.fermaxuk.com

Marine is a range of vandal-proof door-entry panels made of 2.5 mm-thick stainless steel. Straight lines that highlight the quality of the steel. Cutting-edge technology and resistance to even the most harshest of environments.

FEATURES

- The vandal-proof **CALL BUTTONS** are made of stainless steel and are able to resist high impacts.
 - The panel is attached to the flush box by means of vandal-proof **SAFETY SCREWS** made of stainless steel, which can only be removed using the key supplied.
 - The **FLUSH-MOUNTED BOX** is galvanised metal and is attached to the wall by means of self-expanding screws and plugs, to avoid warping.
 - The SMD (Surface Mounting Device) **AMPLIFIER**, which has been subjected to a process of tropicalisation, is designed to withstand the most adverse weather conditions.
- Incorporates voice synthesis: a message is emitted when the lock-release is activated: *"Door open, please close the door behind you"*.
- The **CAMERA**, equipped with lighting for low-light conditions, has a PAN&TILT adjustment system to move the camera $\pm 10^\circ$ in any direction. Incorporates a 3.6 mm. wide angle lens.

Marine video panel with keypad and 1 pushbutton

HOW TO SELECT A PANEL

- Select the panel required according to the number of apartments in the building. Also, select the panel with keypad, proximity reader or paxton cut out, if required.
- The flush or surface box must be ordered separately according to the n° of pushbuttons.
- The amplifier* may be DUOX, VDS, or ANALOGUE (4+N). The references indicated include **digital VDS amplifier** and colour camera in case of video panel. To order the panel with a different amplifier/camera, please check the following combinations table.

AMPLIFIER-CAMERA COMBINATIONS:

REFERENCES	VDS*	DUOX*	4+N
AUDIO	Standard reference	Replace the last digit 3 (VDS) by digit 4 (DUOX).	Replace the last digit 3 (VDS) by digit 1 (4+N).
COLOUR VIDEO	Standard reference	Not available at the moment.	

*A call extension module is required: ref.2008 - 8 calls module or ref.2441 - 16 calls module.

- Colour camera as standard in video panels.

MARINE CODES	
SL	Stainless steel
V	Amplifier with colour camera
24	Number of pushbuttons
3	VDS technology

Other CODES	
N	Keypad
X	Proximity reader
P	Paxton cut out

ref.SLV243

The SLV243 Marine panel is a video door entry panel with VDS amplifier, colour camera and 24 pushbuttons.

2. DIGITAL PANELS

The MARINE DIGITAL panel includes a keypad which calls the apartments by dialling the door number or a corresponding code.

- COLOUR camera as standard.
- A DIRECTORY DISPLAY allows to search for neighbours and their door number.
- Once the code is introduced, press the BELL KEY to call.
- The metallic keys are made of zamak. BACKLIGHTING enabling users to see the numbers in poor light conditions.
- Through the keypad it is possible to activate the installation's electric lock. The management of codes/user numbers depend on the model panel: 350 codes (VDS) and 1,020 codes (MDS with Central Unit ref.2405) .

3. BESPOKE STAINLESS STEEL PANELS

FERMAX can manufacture any panel specific to your requirements, incorporating all the product features within the FERMAX range and utilising any of our technology options.

The chart below will enable you to produce the right part number for your order. Choose your combination, design your panel in the next page form, and send your order to sales@fermaxuk.com

HOW TO ORDER A BESPOKE PANEL?

All combinations include **SLQ** at the beginning, the amplifier (audio or video) and the number of ways followed by the extras added (braille, keypad, Pac cut out and proximity).

REF.	DESCRIPTION	EXAMPLE 1	EXAMPLE 2
SLQ	Stainless steel Bespoke Panel	X	X
A	Audio	X	X
V	Video		X
(number)	N° of call buttons	5	2
BR	Braille		
D	Digital		
N	Keypad	X	X
P	Pac cut out		
X	Proximity	X	X
Technology:	1: 4+N		
	3: VDS		X
	4: DUOX	X

LOCK RELEASE

FLUSH- MOUNTED
SURFACE
SPECIALS
ACCESSORIES

ELECTRIC LOCK RELEASE

An electric lock-release consists of an electrical mechanism and a shield or case, depending of the installation system (flush-mounted or surface).

FLUSH-MOUNTED LOCK RELEASE

SURFACE LOCK RELEASE

REF.2914 ELECTRIC STRIKE

REF.30598 LOCK RELEASE

OPERATING MODES

NORMAL OPERATION - N

Allows door opening while the lock is powered.

- N 12 Vac activation
- N-412 12 Vdc activation
- N-424 24 Vdc activation

AUTOMATIC OPERATION - A, Ab or Aa

Enables door opening with a short electric pulse. The lock release is automatically blocked when the door is closed again.

- A, Ab, Aa 12 Vac activation
- A-412, Ab-412, Aa-412 12 Vdc activation
- A-424, Aa-424 24 Vdc activation

INVERTED OPERATION - N-500

Allows door opening while power to the lock release is off.

- N-512 12 Vdc activation
- N-524 24 Vdc activation

ADDITIONAL FEATURES

Unlocking lever - D

The lock-release with D in its description indicates the addition of a manual release lever which inhibits its function,, which inhibits its operation, allowing free access.

- ND Normal operation with release
- AD Automatic operation with release

Built-in microswitch - CTC

Allows monitoring of door status (open/closed). Suitable for security systems. Not available for MAX version.

Adjustable latch bolt - MAX

If the lock description contains MAX, it indicates that the latch is adjustable, allowing a perfect fit between latch and bolt in the lock, with a 4mm margin. To order a MAX lock release, please **add an 8 to the end of the reference of the compatible lock.**

VIVO

Hands-free slimline VIVO monitor with crystal surface.

Featuring a high tech 7-inch capacitive touch screen, the VIVO monitor operation naturally flows, offering a full and extensive range of operating options and multi-task capacities.

VIVO provides comprehensive and effective control over communication, security and comfort.

DIMENSIONS / INSTALLATION

Surface

Monitor: 233x164x20.
20 mm protusion from the wall once fixed.

REFERENCES

1620	VIVO MONITOR
1605	VIVO CONNECTOR

FUNCTIONS

- TFT Colour screen.
- Hands-free communication.
- Calls to and from:
 - Lynx panels.
 - Any Property Management Unit.
 - Any other VIVO monitor inside home.
 - Any other VIVO monitor in the same installation and accepted as a friend.
- Messages: Receives messages from and sends messages to the Property Management Units and other VIVO monitors in the friends list.
- Captures and stores images from any Lynx call panel or IP cameras connected to the system.
- Panic call to the Property Management Units upon the activation of one of its sensors or additional panic pushbuttons placed in other parts of the home.
- Audio Notes. Records and stores audio messages.
- Do not disturb. Silent calls can be configured for given or unlimited periods of time.
- Timer. VIVO monitor also acts as an alarm for time management purposes.

Dimensions: (width) x (height) x (depth) mm.

PERSONALISATION & INTEGRATION

The VIVO monitor offers a wide range of background colours to suit every environment.

VIVO offers a wide-ranging freedom of choice for users. The monitor allows:

FRIENDS LIST MANAGEMENT

Calls between different units is only possible upon the acceptance of those units in the friends list.

BACKGROUND SETTINGS

VIVO monitor blends with individual decors and surroundings by providing a range of screen background colours.

RING TONE SETTINGS

A wide range of melodies specifically composed for VIVO monitor provide ring tone selections for each user and each situation, delivered with surround sound through the monitor's two high performance speakers.

MENU CONFIGURATION

With a touch of the finger, the on-screen menu layout can be simply re-configured to reflect the habits and preferences of each individual.

PRIVACY AND RESTRICTIONS MANAGEMENT

The user and installer can simply set or remove barriers for data protection.

LYNX enables projects to be customised to address the different needs of unique real estate developments. Whatever the project environment the VIVO monitor can be smoothly integrated.

COMPATIBILITY WITH MULTI-BRAND HOME AUTOMATION SYSTEMS

Each home is unique and so are its requirements for device integration: wired or wireless, open standards or proprietary protocols, simple or complete. The VIVO monitor is the ideal communication gateway as it can integrate with dedicated applications for each specific Home Automation brand. The VIVO monitor allows for the easiest and most user friendly interaction with the most popular Home Automation systems available in the market.

ALARM SYSTEM

Up to 64 alarm sensors can be connected to the VIVO monitor for maximum family safety and protection.

CCTV CAMERAS

VIVO monitor can display the images from an IP camera connected to the Lynx system making it a window to the world.

LIFT

The Fermax Lynx system and VIVO monitor interact with the elevators for the convenience and increased protection of the residents.

PERFORMANCE

When a call is received from the video door entry panel, the image comes up automatically. The user will receive additional information regarding the call status on screen: calling, in conversation or door open function.

FUNCTIONS

- Colour TFT screen, available in 7" and 3,5".
-  Activates/deactivates the communication with the outdoor panel.
-  Door opening.
-  Access to MENU by pressing during 5 sec. A quick keystroke (1 sec.) activates the invisible keypad to access the additional functions.
-  Activates the panel camera manually.
- F1-F2: Activates additional functions: stair light switching, 2nd door opening, etc.
- Call status information is displayed on screen.
- Allows the installation of a CCTV camera and a view of the image via the monitor.
- VDS technology.

SYSTEMS

DUOX

VDS

MDS

LYNX

AUDIO: 2 COMMON WIRES (WITHOUT POLARITY)

FEATURES

- **A simplified installation audio system.** It utilises the transmission of the signal in a **completely digital way** increasing the equipments capacity using only **2 non polarised wires**.
- **Capacity:** The system enables management of up to 999,999 homes, up to 10 general entrance panels, up to 10 panels by block and 10 panels by sub-blocks, up to 100 interior blocks and up to 100 sub-blocks.
- **Maximum distance:** up to 300 metres (extendable with additional elements).
- The **DUOX amplifier** includes voice synthesizer in 64 languages. When the electric lock is activated, a message is reproduced:
"The door is open. Please, close the door behind you".
- DUOX telephones must be programmed with the house number where they are installed, from a panel configured as a master.
- Communication is PRIVATE.
- It enables the management of 2 conversation channels at the same time.
- In new construction it is possible to use parallel cable, twisted pair cable, UTP (CAT-5) or 9/10° (twisted pair).
- In replacement works, DUOX works with the existing cable from old installations: 5 wires, 2 wire doorbell or even old 4+N wires.
- In case there is more than one panel, a DIRECT keypad (ref.7439) or DUOX programmer (ref.3254) is required for configuration.

A complete DUOX system consists of:

Accesses

Home

Accessories

1. OUTDOOR PANEL

PUSHBUTTONS

SKYLINE (See SKYLINE panel)

Choose a DUOX amplifier and the rest of necessary modules to build the panel depending on the number of apartments in the building.

SKYLINE WITH ONE-TO-ONE

DUOX SYSTEM

DIGITAL PANEL

SKYLINE (See SKYLINE panel)

DIGITAL panels include a keypad and a directory display. The keypad incorporates an access control function (350 codes). It is possible to configure any DIGITAL panel combination with other access control or signalling accessories.

2. POWER SUPPLY/ADAPTOR

4830 POWER SUPPLY 18Vdc/3,5A

To power the DUOX system. 1 power supply is required for each 80 telephones depending on the cable section.

4812 POWER SUPPLY 18Vdc/1,5A

Necessary for additional monitors in home. DIN6

4810 POWER SUPPLY
18Vdc/1,5A-12Vac/1,5A

3243 DUOX POWER SUPPLY
ADAPTOR MODULE

Combining with the power supply (ref.4830, ref.4812 or ref.4810). In small installations with 1 panel and up to 24 telephones, it is not necessary if the power supply is connected directly to the outdoor panel. DIN4.

3255 DUOX LINE TERMINATION

Necessary at the end of every riser.

3258 DUOX TRUNK SHUNT-ISOLATOR

Splits a riser into 2 separate branches, regenerating the signal and isolating each branch against possible breakdowns. Up to 4 modules on 2 levels (16 outputs). Risers can share the power source or have one supply per riser. Cascade connection up to 2 levels. Connection is possible:

TYPE OF CABLE	SECTION	N° TELEPHONES
Parallel	1mm ²	48
4+N	0,5mm ²	28
Ethernet CAT5	0,128mm ²	16

from each riser splitter output when powered by a single supply from the same splitter. A higher load (up to 200 terminals per riser) may be connected by adding power supplies and depending on the type of wiring used.

ref.4830

ref.4812

ref.3243

ref.3255

ref.3258

3256 DUOX REGENERATOR

To regenerate the DUOX signal and extend distances and terminal capacity.

ref.3256

ref.3257

3257 DUOX RELAY MODULE

An additional function may be triggered from the DUOX handset F1 or F2 buttons, with no extra wiring required. The relay can also be triggered by call or electric lock/door release activation. Allows pairing of 2 relays, one as sender and the other as receiver, for remote switching.

ref.3254

3254 DUOX PROGRAMMER

The operational status of any DUOX installation can be programmed and checked quickly and easily.

3. LOCK RELEASE

A/C electric lock (Vac).

A power supply ref.4800 (12Vac/1,5A) or Vac door lock release activator (ref.3264) is required.

3071 LOCK RELEASE 450N-S

Normal functioning and small shield. 12Vac.

3069 LOCK RELEASE 450A-S

Automatic functioning and small shield. 12Vac.

3264 AC ELECTRIC LOCK COMMANDER

Maximum current: 1 Ampere.

450 Series consumption		
N,A	12Vac	980mA
N-412	12Vdc	400mA

Allows MAX version. Add an 8 to the chosen reference.

D/C electric lock (Vdc).

5. ACCESSORIES

ADDITIONAL FUNCTIONS (For PLUS BASIC and EXTRA models)

2013 ADDITIONAL FUNCTION RELAY. 2A

Allows activation of electrical devices remotely using an additional button on the telephone or monitor: switch on the stair light, open the garage, open a 2nd door, etc.

29001 TIMER

Allows activation of a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

ref.2013

ref.29001

CALL ACCESSORIES

2040 ELECTRONIC CALL EXTENSION BELL

Equipment that receives the door entry system call tone, enable users to hear it in any place where the call extender is located. It is possible to connect 1 for each monitor or handset.

2438 LIGHT OR BUZZER ACTIVATOR

Allows activation of high powered devices or indicators when a call is received: bells, sirens, light bulbs, etc. It is possible to connect 1 for each monitor or handset.

CABLES

5925 PARALLEL CABLE (1M)

Parallel cable of 1mm².

ref.2040

VIDEO: 5 WIRES / UTP CAT5 / 3 WIRES+COAX
AUDIO: 3 WIRES

FEATURES

- VDS wiring: 5 wires, UTP CAT5 or 3 wires+coax.
- Capacity: buildings of up to 199 homes, 2 entry accesses and central guard unit.
- Maximum distance: 200 mtrs. (See VDS technical info.).
- The VDS amplifier includes a *Voice Synthesizer* as standard in 32 languages. A message is reproduced when the lock-release is activated: *"The door is open. Please, close the door behind you"*.
- COLOUR CAMERA.
- The VDS MONITORS & HANDSETS are simply programmed with the number of the corresponding home. It is possible to combine monitors and telephones in the same installation.
- The communication is PRIVATE.
- As a replacement, the VDS allows the changing of a 4+N entry system for a VDS video entry setup, making use of the existing wiring.

BASIC INSTALLATION

A VDS system consist of the following elements:

SKYLINE PANEL

SKYLINE consists of 8 different-sized frames where the modules can easily be fitted. Modules come in 2 sizes: V and W (W is twice the size of V).

The use of these modules with the appropriate frames, enables flexibility to create a panel for any building.

If the configuration calls for more than one panel, a connection cable between them is needed (1 cable for each additional panel).

ref.2541 Cable 6 W.

ref.2542 Cable 5 W.

2. POWER SUPPLY/SWITCHER

4830 POWER SUPPLY 18Vdc/3,5A

To power the system one power supply is required for each 40 monitors or each 80 telephones. DIN6 format.

4812 POWER SUPPLY 18Vdc/1,5A

For additional monitors in homes. 1 power supply is required for every 2 additional monitors in the apartment. DIN6 format.

4800 POWER SUPPLY 12Vac/1,5A

For power the electric lock (Vac). DIN4 format.

2450 VDS VIDEO SWITCHER

Necessary for installations with 2 VDS video outdoor panels (without guard unit).

3265 VDS TESTER

For programming and cheking the workings in a faster, more convenient and efficient way.

4. VDS ACCESSORIES

TELEPHONE INTERFACE

4545 TELEPHONE INTERFACE

Connected to the telephone, it allows the communication with the outdoor panel as well as opening the door remotely from any conventional or wireless telephone at home. It allows as well to forward the call to one or two external land lines or mobile telephones.

ADDITIONAL FUNCTIONS

2013 ADDITIONAL FUNCTION RELAY. 2A

Remotely activate electrical devices using an additional button on the telephone or monitor: to switch on the stair light, to open the garage, etc.

29001 TIMER

Activates a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

VIDEO ACCESSORIES

4110 VIDEO AMPLIFIER

To regenerate the video signal of the coaxial in installations with cable distances of more than 200 metres.

It is possible to expand video door-entry installations with a 2nd overhead camera and select and view it from the monitor (expandable up to 8 cameras).

2450 VDS VIDEO SELECTOR/SWITCHER

Necessary in VDS video door entry system with 2 video door entry panels.

2472 8-CAMERAS SELECTOR

Allows to control up to 8 additional cameras from the monitor (F1 and F2 buttons).

CALL ACCESSORIES

2040 ELECTRONIC CALL EXTENSION BELL

Equipment that receives the door entry system call tone, allowing to hear it in any place where the call extender is located. It is possible to connect 1 for each monitor or handset.

2438 VDS LIGHT OR BUZZER ACTIVATOR

Allows to activate high powered devices or indicators when a call is received: bells, sirens, light bulbs, etc. It is possible to connect 1 for each monitor or handset.

CABLES

5919 VIDEO BUS CABLE (1MTR)

3 wires of 1mm² + 1 coaxial of 75 Ohms. This cable is supplied in 100 metre rolls. Orders must be multiplied of 100.

VIDEO: 6 COMMON WIRES + 1 SHIELDED TWISTED PAIR + 1 VIDEO COAX
AUDIO: 4 COMMON WIRES + 1 SHIELDED TWISTED PAIR

FEATURES

- MDS (Multiplexed Digital System) is a digital audio and video door-entry system that integrates all the services of the apartment block or housing complex:
 - Allows to manage buildings and complexes of any size.
 - **AUDIO AND VIDEO DOOR ENTRY SYSTEM.**
 - **INTERCOMMUNICATION** between accesses, homes, guard units and lifts.
 - **ACCESS MANAGEMENT AND CONTROL** according to authorisations to restricted areas. Each user has an identification code for all accesses.
 - **SECURITY** centralised in the guard unit, for protection of common areas and control of incidents in the homes.
 - **AUTOMATION** of functions and services of the apartment block or complexes (sprinklers, lights, swimming-pool, etc).
 - MDS is a system with **simplified BUS installation ①**.
 - The **Central Unit ②** incorporates all the electronics for management and control of the system.
 - The floor **MDS decoders and MDS distributors ③** connect the homes to the installation BUS and act as isolators.
 - Home to outdoor panel communication is **private**.

AUDIO BUS + DATA + TELEPHONE BUS

AUDIO BUS + DATA + VIDEO BUS

More information about diagrams at www.fermaxuk.com

MDS SYSTEM OPTIONS

• MDS DIGITAL:

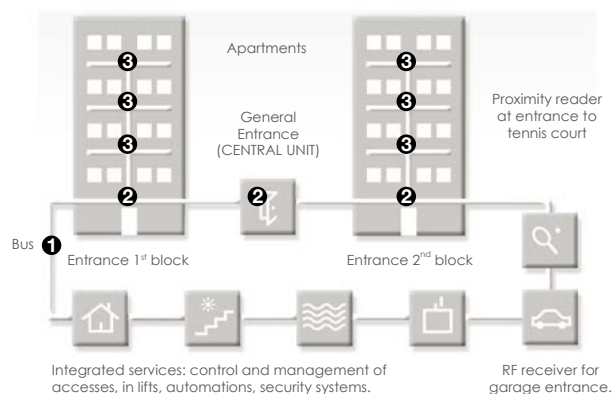

Requires a Central Unit.

C. U. Capacity: 9,999 homes, 32 accesses/guard units.

Up to 63 Central Units can be connected. Incorporates all the MDS services.

• MDS COMBINED WITH OTHER SYSTEMS:

In the case of housing complexes, the flexibility of MDS makes it possible to combine general MDS entrances and internal apartment blocks with VDS or conventional 4+N audio or video door-entry system or with individual houses.

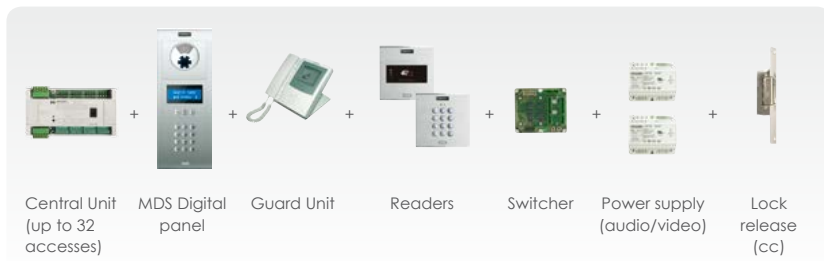

Dimensions: (width) x (height) x (depth) mm.

MDS DIGITAL

A complete MDS DIGITAL system basically consists of the following elements:

Access/General entrances and blocks

Building (by floors)

At home

1. OUTDOOR PANEL

Panel with keypad + electronic directory.

A Central Unit is required.

SKYLINE (See Skyline Panel section)

It allows to create any audio or video door entry panel with access control and informative displays.

2. GUARD UNIT

- 2537 MDS DIGITAL GUARD UNIT

Desktop support included. Allows surface installation. Includes a 4" graphic display that informs of all the events and actions of the installation.

The guard unit has 3 operation modes: **day**, **night** and **mixed**, and in the case of MDS Digital Installations, it can act as a panic reception centre. The guard unit can communicate with any access or home, and can establish communication between any 2 points of the installation (exclusively MDS installation).

ref.2537

3. CENTRAL UNIT

Essential in installations with MDS digital panels.

- 2405 MDS 1 ACCESS CENTRAL UNIT

Manages up to 9,999 apartments and 1,020 access control users.

- In individual blocks: manages up to 32 accesses (1 of them can be audio/video). For more audio/video accesses, switcher (ref.2379) every 2 accesses will be required.

- In housing complexes: up to 31 accesses per Central Unit if the accesses are audio/video, 2-access switchers ref.2379 will be required. Includes WINCOM PLUS software for PC configuration. Includes memory for incidents record (A.C. applications).

ref.2405

2379 2-ACCESSES SWITCHER

Necessary to connect more than one video panel/guard unit to C.U. Add 1 module for more than 1 additional panel/guard unit.

ref.2379

PC CONNECTION ACCESSORIES

24661 USB TO RS-485 PC ADAPTOR

Enables Central Unit programming by PC in FXL network. PC Connection by USB.

Pc

2466 DECODER PROGRAMMING MODULE. ADAPTOR RS-232 TO RS-485

Enables Central Unit programming by PC (serial port).

Pc

2338 RS-232 TO RS-485 PC ADAPTOR

Allows Central Unit programming in FXL network. DIN. RS-232 connection to PC. Allows to connect 1 modem for remote management by telephone. Maximum distance to Central Unit: 1.200m.

Pc

1087 IP REMOTE MANAGEMENT MODULE

It is connected to the Central Unit by means of the adaptor ref.2466. Permits communication between the management computer and the installation using the computer network (Ethernet), avoiding additional wiring.

Pc

4. POWER SUPPLIES

GENERAL POWER SUPPLY

4813 AUDIO POWER SUPPLY. 12Vdc/2A

Requires: 1 unit for each Central Unit and up to 6 accesses; or 1 unit for every 10 VDS decoders or audio decoders, depending on the distance and cable cross-section used. DIN6 format.

ref.4813

4830 VIDEO POWER SUPPLY. 18Vdc/3,5A

Requires: 1 unit for each 40 monitors or 1 unit for each 4 monitors per apartment. DIN6 format.

ref.4830

4812 VIDEO POWER SUPPLY. 18Vdc/2A

To extend the number of monitors in homes. Requires: 1 unit for every 2 additional monitors per home. DIN6 format.

ref.4812

EMERGENCY POWER SUPPLY

For functioning of the power unit if the electricity supply fails, it is necessary to connect it to an adapter, to which a battery is connected. Compatible with any type of standard lead acid battery.

- 2060 EMERGENCY BATTERY ADAPTOR. 12Vdc
- 1021 EMERGENCY BATTERY ADAPTOR. 18Vdc

ref.2060

5. AUDIO DECODER / VIDEO DISTRIBUTORS

AUDIO DECODER

- 2424 4-WAYS AUDIO MDS DECODER

1 unit for each 4 homes. DIN10.

- 2425 8-WAYS AUDIO MDS DECODER

1 unit for each 8 homes. DIN10.

- 2426 4-WAYS AUDIO ISO DECODER

1 unit for every 4 homes (audio/video). Necessary in MDS installations where total isolation of the telephones from the rest of the installation is required (anti-sabotage) and in MDS DIGITAL installations with "panic button" or with light indicator on telephones. DIN10 format.

- 2436 4-PANEL DECODER

1 unit for every 4 panels 4+N of up to 2 pushbuttons. For installation in lifts or garages, in order to make calls to concierge. DIN10.

- 2466 DECODER PROGRAMMING MODULE. ADAPTOR RS-232 TO RS-485

Includes DECOWIN software and connection cables. Allows remote programming of the MDS Digital Central Unit and decoders.

- 24661 ADAPTOR USB to RS-485

Enables programming of MDS Digital Central Unit (ref.2405) and decoders by PC via USB port.

VIDEO DISTRIBUTOR

- 2418 4-WAYS VIDEO DISTRIBUTOR

1 unit for each 4 homes (video). DIN10.

- 2419 8-WAYS VIDEO DISTRIBUTOR

1 unit for each 8 homes (video). DIN10.

ref.2424

ref.2436

ref.2419

6. COMBINATION WITH OTHER SYSTEMS

The MDS decoder allows connecting the general entrance (G.E.) with interior blocks (I.B.) with VDS technology.

2409 VDS/MDS DECODER

Necessary for enclosures in VDS interior blocks already installed 1 decoder per block. Add one distributor (ref.2448) and/or switcher (ref.2450) in general video entry installations.

	VDS Audio I.B.	VDS Video I.B.
MDS Audio G.E.	2409 VDS decoder	2409 VDS decoder
MDS Video G.E.	2409 VDS decoder 2448 Video distributor	2409 VDS decoder 2448 Video distributor 2450 Switcher

7. MDS REPEATER / VIDEO AMPLIFIER

2339 MDS REPEATER

To regenerate the digital signal of the panels or decoders BUS that is transmitted by the twisted pair of the installation. DIN10 format. Requires:

- Length of the BUS > to 1.200m: One repeater every 1.200m.
- When there are more than 120 decoders.

4110 VIDEO AMPLIFIER

To regenerate the video signal when the length of the BUS is greater than 250m. One amplifier every 250m.

1345 FIBER OPTICS CONVERTER

Allows MDS signal transmissions (audio, video and data) by means of a fiber optic cable (monomode fiber with FC/PC connectors). Advantages: links up to 5 km, noise immunity and discharges isolation. Includes: transmitter (TX), receiver (RX) and two power supplies.

ref.2339

8. CABLES

All cables are supplied in 100 meter rolls. Orders must be multiples of 100.

5918 DECODER-PANEL-FXL CENTRAL UNIT
BUS CABLE (1m)

4 wires 1mm²+1 twisted pair shielded of 2 x 0,5 mm².

5919 VIDEO BUS CABLE (1m)

3 wires of 1mm²+1 coaxial of 75 Ohms.

5922 DECODER-TELEPHONE
CONNECTION CABLE (1m)

6 wires of 0,5mm².

8039 UNIVERSAL CITYMAX TELEPHONE (pearl finish)

BASIC

UNIVERSAL

INTERCOMMUNICATION. PALACE BUS

Enables communication only between telephones in the same house. Maximum up to 12 terminals. 1 power supply (ref.4812) is required per home and a multiline switcher (ref.9017) to distinguish indoor/outdoor conversation. Max. distance: 100m.

8084 PALACE CITYMAX TELEPHONE

9017 MULTIWAY SWITCHER

Maximum: 100mts (ø1mm²)

Dimensions: (width) x (height) x (depth) mm.

FEATURES

- MDS/VDS combination is the system with the most complete functions and maximum wiring simplicity.
- It consist of a combination of:
 - MDS Digital System for General Entrances.
 - VDS Digital System for Interior Blocks.
- Its capacity is expandable:
 - From 1 to 9,999 units.
 - Up to 32 entrances or guard/managements.
 - Combined with single houses, medium or big blocks.
 - Possibility of several access control readers along the installation.

IN MEDIUM SIZE BLOCKS INSTALLATIONS

One MDS/VDS Decoder is required **3** per block.

VDS cable inside the building **4**: UTP CAT5, 5 WIRES or 3+COAX.

VDS telephones & monitors are required.

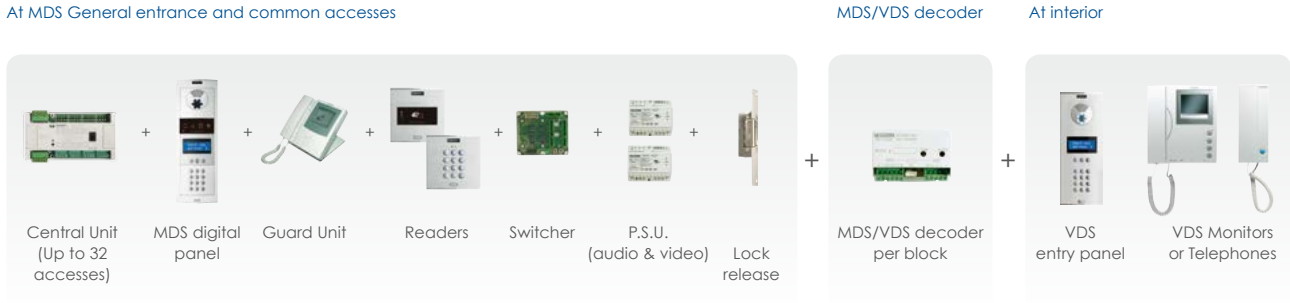

INSTALLATION

- System with simplified MDS BUS installation **1** connecting general entrances, interior blocks and access control readers.
 - MDS AUDIO BUS: 4 common wires + 1 common shielded twisted pair.
 - MDS VIDEO BUS: 6 common wires + 1 common shielded twisted pair + 1 video coax cable.
 - MDS Central Unit is required in general entrances. Capacity: 9.999 homes, 32 accesses/guards units. Central Unit **2** includes all the electronic elements for managing and controlling the system.
 - The MDS Sytem (MDS BUS) installed at general entrances can be combined with VDS System (UTP CAT 5, 5 WIRES or 3+COAX) in the blocks, thanks to a MDS/VDS decoder **3**.
- The MDS/VDS decoder (new version) allows VDS Monitors and Telephones to have additional functions such as panic call to the concierge or lift control.

MDS/VDS SYSTEM

MDS/VDS Digital system with medium-size interior blocks basically consists of the following elements:

IN BIG SIZE BLOCKS INSTALLATIONS

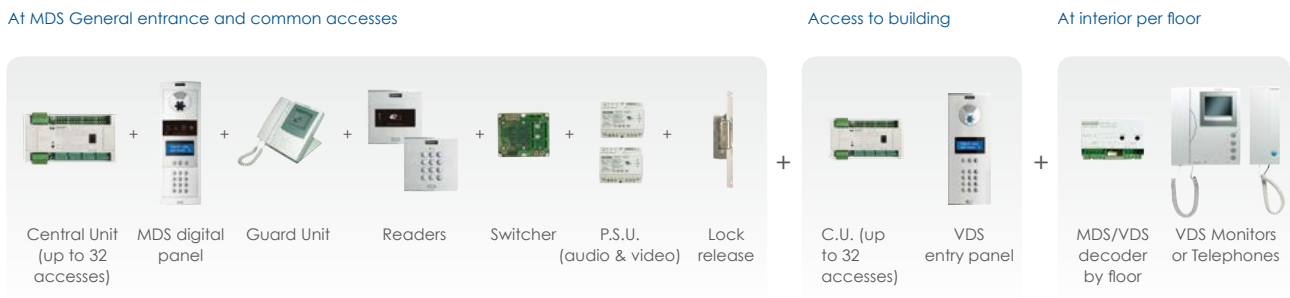

In large interior blocks with several terminals in each floor where specific functionalities are demanded, a MDS/VDS Decoder **3** is required per floor.

MDS BUS in the riser and VDS cable in each floor **4**: UTP CAT5, 5 WIRES or 3+COAX.

VDS telephones & monitors are required.

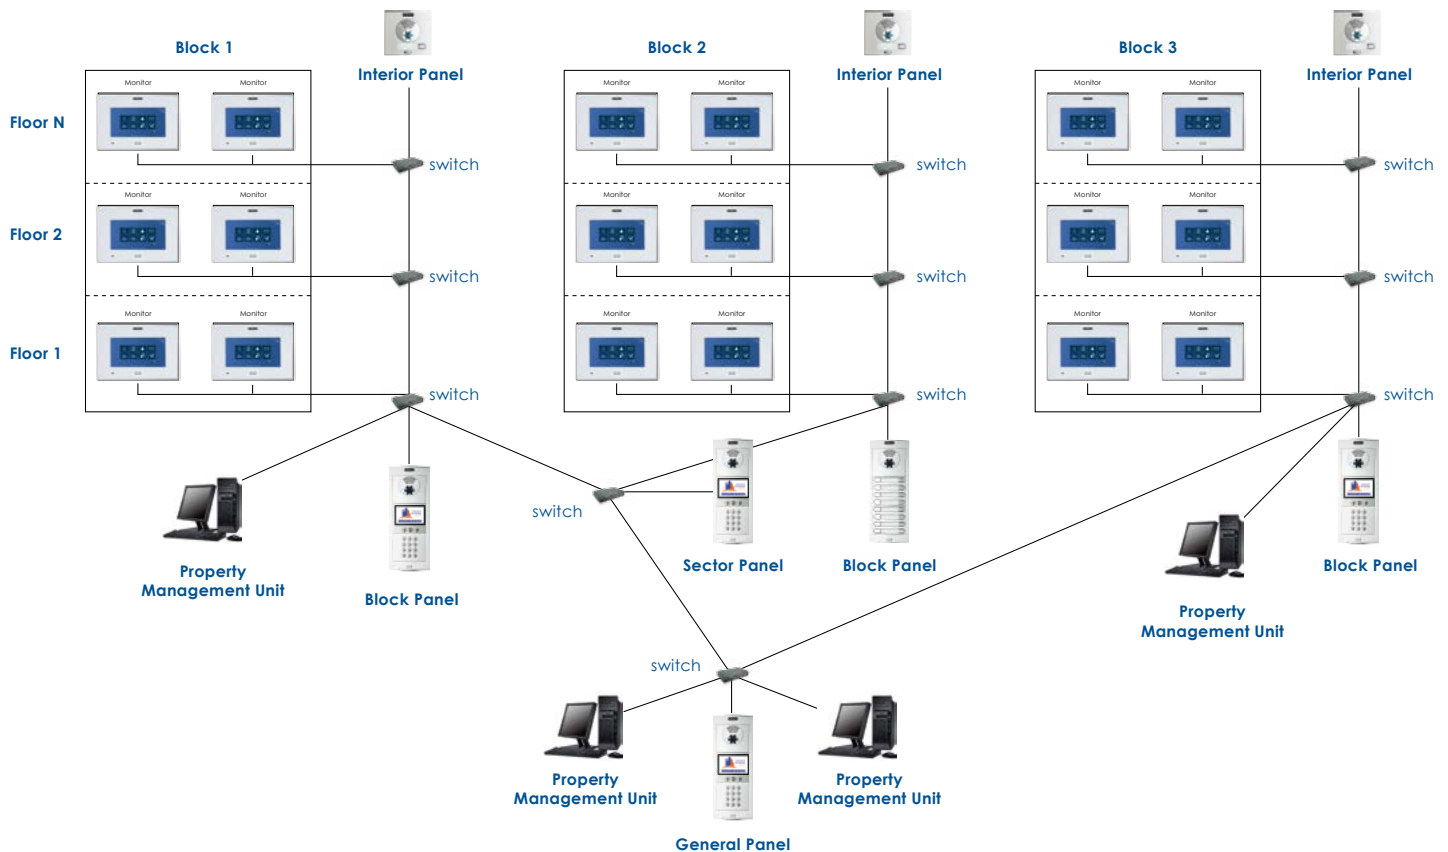

MDS/VDS Digital system with large size interior blocks basically consist of the following elements:

FEATURES

- TCP/IP system.
- Allows users to manage from small systems to large installations:
 - A virtually unlimited number of monitors can run under one LYNX installation.
 - Unlimited distances from end to end of and installation.
 - Multichannel for conversations and data flows, which unlimited capacity.
- Easy and simple installation with the maximum robustness:
 - Power over Ethernet (PoE) simplifies the installation.
 - LYNX can be integrated into existing local area networks. LYNX employs structured cabling system (SCS), and standard network equipment with network convergence.
 - Blackout free. SIP peer to peer distributed architecture allows independent operation for each device, without the need for a centralized server.
 - Upload configuration from an SD card makes installation a basic, straightforward process without any need for complicated training.
- Compatible with home automation systems.
- Simple access control included.
- Easily expandable.

LYNX SYSTEM

A complete LYNX system consist of the following elements:

(Consult availability).

1. OUTDOOR PANEL

- COLOUR CAMERA.
- The LYNX amplifier includes a *Voice Synthesizer* as standard. A messages is reproduced when the lock-released is activated: *"The door is open. Please, close the door behind you"*. Configurable in 32 languages.

SKYLINE PANEL

SKYLINE consists of 8 different-sized frames where the modules can easily be fitted. Modules come in 2 sizes: V and W (W is twice the size of V).

5486 LYNX DIGITAL MARINE PANEL ST4 WITH PROXIMITY

Panel ST1: 150x180 Flush box: 130x160x55

Panel ST3: 150x360 Flush box: 130x340x55

Panel ST4: 150x460 Flush box: 130x460x55

ref.5484

ref.5485

ref.5486

2. POWER SUPPLY

4813 AUDIO POWER SUPPLY 12Vdc/2A

A power supply is required for each outdoor panel. DIN6 format.

ref.4813

3. LOCK RELEASE

For more information about door locks, see current lock release catalogue.

3070 LOCK RELEASE 450-412-S

Normal operation and short shield.

30708 LOCK RELEASE 450-412-S MAX

Normal operation and short shield. 12Vdc. MAX version.

Consumption Series 450		
N-412	12Vdc	400mA

4. MONITORS

LYNX SYSTEM

5. ACCESSORIES

1610 LYNX PROPERTY MANAGEMENT UNIT

The Property Management Unit is LYNX's software application which allows management of communications, security and comfort in buildings. It is intuitive. A developing guard which configures functions of the system. It is prepared for use by means of a PC touch screen or with a conventional keypad.

It operates using three user profiles:

- **Installer profile (configuration):** Easy, quick and adaptable. LYNX allows for a great variety of settings to customise function and performance to the specific needs of each residence.
- **Administrator profile (maintenance):** Property Management Unit offers administrators straightforward and intuitive command protocols to manage system passwords, user-privilege settings and to create or delete guard profiles.
- **Guard profile (operation):** Comprehensive, easy to use and dependable. Property Management Unit guards the information and tools they need to provide first-class attentive service, protection and support to the most demanding of residents.

Depending on the circumstances, the Property Management Unit offers three operating modes:

- **Full service:** All calls from panels to units are forwarded to the assigned Property Management Unit for filtering.
- **Home service:** Visitors can call both the apartment or the PMU.
- **Off service:** When guards are absent calls can be forwarded to others on duty. Supplies multifunction services: communication with homes, message service, event recording, protection using CCTV cameras, lift control...

1615 MASTER LYNX RELAY DECODER

1616 10-WAYS LYNX RELAY DECODER

NOTE: LYNX requires a local area network. A switch is required. The system is compatible with most of the switches (preferably with PoE and QoS support).

No need for any special configuration for LYNX.

1617 SWITCH LYNX (4 PoE +4)

1618 SWITCH LYNX (8 PoE +8)

6. INTEGRATION WITH OTHER SYSTEMS

LYNX provides users freedom of choice through existing technologies and home automation systems. This system offers synergy through unlimited solutions which support integration, interaction and compatibility with other systems.

ref.1615

ref.1616

FERMAX

ACCESS CONTROL

STAND-ALONE
CENTRALIZED

STAND-ALONE ACCESS CONTROL

Stand alone systems allow control of doors or other accesses. Recommended for offices, businesses, garages, etc. SKYLINE readers can be integrated in audio or video door entry panels to enable access to the building for residents.

1. MEMOKEY (KEYPAD)

- Maximum capacity: 100 codes.
- Power supply 12Vac/12Vdc. Power supply 12Vac/1,5A (ref.4800) is recommended.
- Input for exit button on the inside.
- Input for free access button.
- 2 relay outputs (2A,NC/NA) (1 output in LOFT model) for activation of lock-release and connection of alarm. Programmable time.
- Each code can activate one or two relays at the same time.
- Acoustic confirmation of acceptance/rejection of the code.
- Programming from the keypad by means of a master code.

6991 CITYLINE MEMOKEY READER

Indoor/outdoor. Aluminium panel. Permanent backlight keypad made in zamak with signal LEDs. Flush-box included (ref.8948). Surface installation option (ref.7061).

7438 SKYLINE MEMOKEY MODULE W

Accessory for SKYLINE panels.

3610 CITY CLASSIC MEMOKEY READER

4699 MARINE MEMOKEY READER

Outdoor. 2,5mm stainless steel panel with backlight keypad and signal LEDs. Flush-box ST1 included (ref.4641).

4540 LOFT MEMOKEY

Indoor. Surface mounting. Membrane keypad. Includes a 50cm cable.

2. PROXIMITY (PRIVATE)

- Up to 400 users. Power supply 12 Vac/12 Vdc. Power supply 12Vac/1,5A (ref.4800) recommended.
- Input for exit button.
- Input for door sensor.
- Relay output for activation of lock-release. Programmable time.
- Confirmation, by means of LED and sound, of acceptance or refusal of the card presented.
- Programming-assistance LEDs (activation/deactivation cards).
- Programming users by means of a master card or by PC. Free Winprox software at www.fermaxuk.com (downloads section).

ref.2306

3. BLUETOOTH

Enables users to activate the electric lock remotely by using a mobile telephone with bluetooth technology.

Power supply 12Vac/Vdc (ref.4800 recommended).

The system has 2 operating modes:

1. **Restricted to authorised telephones.** Maximum capacity: 40 telephones. Automatic opening when the authorised cell phone is within range of the receiver, or by means of a keypad confirmation or introducing a PIN.
2. **Access to any telephone.** Within range of the receiver, requesting the personal access code to open the door.

6993 CITYLINE BLUETOOTH READER

Outdoor/Indoor. Flush box included (ref.8948). Optional surface box (ref.7061).

7441 SKYLINE BLUETOOTH MODULE V

Accessory for SKYLINE and CITYLINE panels.

5473 MARINE BLUETOOTH READER

Stainless steel. Flush box included (ref.7061).

4. RADIO FREQUENCY (433Mhz)

SHOP SYSTEM

79561 TRINARY TRANSMITTER 433Mhz

Configuration by trinary dip-switch. A single code for all emitters.

ref.79561

SECURITY SYSTEM

The RF digital emitters have an exclusive code for each user. Recommended for garage access and remote control of devices: lights, blinds, sirens, etc.

7960 SECURITY RF RECEIVER

10 users maximum. Input for exit button. Relay output (2A, NC/NA). Programmable time. Mono-stable/bi-stable functioning. 12Vac/12Vdc. Compact-sized dimensions, so it can be hidden in distribution boxes. Dimensions: 90x60x20.

ref.7960

ref.24651

24651 DIGITAL RF REMOTE CONTROL

With 1 unique code by transmitter.

COLLECTIVE GARAGES SYSTEM

7952 SINGLE CHANNEL RECEIVER 433Mhz

Configuration by means of trinary dip-switch. Accepts a card for addition of a 2nd channel. Relay output (2 A, NC/NA). 230Vac power supply. ABS IP65 box. Dimensions: 91x198x57.

ref.7952

ref.79561

79561 TRINARY TRANSMITTER 433Mhz

Configuration by trinary dip-switch. A single code for all transmitters.

ACCESS CONTROL

CENTRALISED ACCESS CONTROL

The Centralised Access Control System gives an answer to complex installations with several accesses and advanced managing and automation functions. A Central Unit and a highly intuitive Windows software are required to program the installation with the PC. The connection between the PC and the installation can be direct to the installation (RS-485) or remote (IP). The data can be updated and the installation monitored from different PCs (multi-station).

ref.4410

CENTRALISATION

The centralisation of the system contains: Central Unit, power supply, battery and the necessary module for communications with the PC. An emergency power supply is recommended. In installations with large distances, it will be necessary to install additional power supplies at the access in order to avoid voltage drops in the cabling.

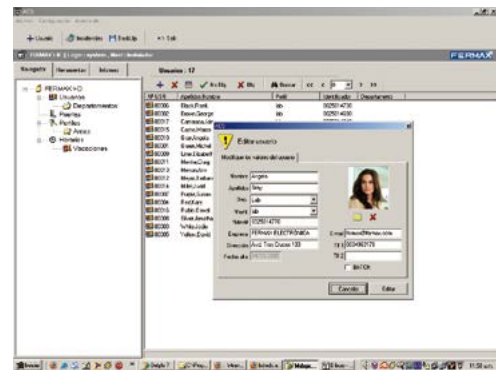

4410 CENTRALISED AC CENTRAL UNIT

For advanced access control functions and home automation only. Each Central Unit allows:

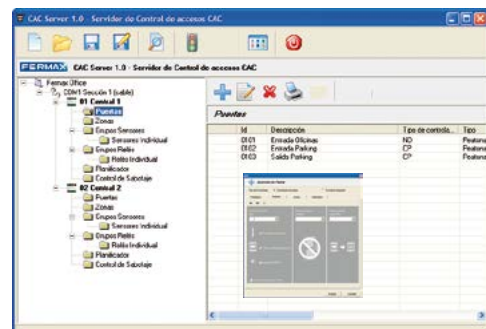

- 2.048 users.
- 32 doors. It can manage one reader to enter and another to exit.
- 64 groups of users (profiles).
- 4 special profiles without restrictions.
- 32 areas. Defines the doors to which access is permitted.
- 32 timetables. It is possible to define holidays.
- Recording of the last 3.000 incidents (entries, exits, accesses denied, alerts, etc.)
- Capable to manage 1.000 intercommunication panels/1.000 sensors/1.000 relays.

Includes 2 software PC for programming and system management:

- **Centralised AC Server.** To configure the hardware (central unit, readers, decoders, etc).
- **Centralised AC Access.** To manage the users and the restrictions.

AC Access software

AC Server software

4813 POWER SUPPLY 12VDC/2A. DIN6

General power supply. 1 power supply for each 6 accesses is required.

ref.4813

2060 BATTERY ADAPTOR 12VDC

Installed between the power supply and the system. It utilises a connector to link with an external PB-Acid battery.

2339 MDS REPEATER

Necessary for distances of over 1.200m between door controllers or decoders and the Central Unit. Format DIN10.

ref.2339

PC CONNECTION ACCESSORIES

24661 ADAPTOR PC USB to RS-485

Enables Central Unit programming by PC in FXL network and connection by USB. Includes Driver.

1087 IP REMOTE MANAGEMENT MODULE

Is connected to the Central Unit by means of the adaptor ref.2466. Allows communication between the management computer and the installation using the computer network (Ethernet), avoiding additional cabling. Remote management via internet is possible if there are no protection devices (firewall) in the computer installation.

FIBER OPTIC ACCESSORIES

1345 FIBER OPTICS CONVERTER

Allows MDS signals transmissions (audio, video and data) by means a fiber optic cable (monomode fiber with FC/PC connectors). Advantages: links up to 5 km, noise immunity and discharges isolation. Includes: transmitter (TX), receiver (RX) and two power supplies. It can be used in any communication point of an MDS system.

ACCESS CONTROL

READERS WITH INTEGRATED CONTROLLER

6992 CITY PROXIMITY READER

6994 CITY CENTRALISED AC KEYPAD

Flush box S1 (ref.8948) included.

1065 RF DIGITAL RECEIVER

24651 RF DIGITAL EMITTER

ref.1065

ref.24651

ACCESSORIES

These controllers require an external relay to activate a lock-release with consumption greater than 500mA or inverted functioning.

2013 RELAY 2A

2430 8-RELAYS DECODER

Secure activation of the lock-release from the inside. The 8 outputs are programmable from the software (DECOWIN).

ref.2013

2429 8-SENSORS DECODER

It handles 8 sensors: door contacts, presence, flooding... The 8 inputs are programmable from the software (DECOWIN).

ref.2430

ref.2429

READERS WITHOUT INTEGRATED CONTROLLER (EXTERNAL)

Recommended for higher security applications, where the electronics are located in an independent controller (ref.4420). One per reader is required.

4420 DOOR CONTROLLER

Accepts Wiegand-26 bit or magstrip (Data/Clock) readers. Incorporates one relay to activate the lock release and another for auxiliary functions. Accepts a reader for entrance and another for exit, exit button, door sensor, free access button. Is installed in 100x100mm boxes.

ALWAYS AT OUR CUSTOMERS SERVICE

Our customers are professionals with whom we intend to establish long lasting bonds based on confidence and trust.

Our evolution has not made FERMAX forget its family business roots. We know that a company is first and foremost, a family. With a good team, FERMAX can offer more to our customers.

Our mission/commitment is to guarantee your satisfaction.

- Quick deliveries
- Quotations within 24 hours.
- Free technical help line.
- Dynamic and professional telephone assistance to solve problems.
- Customized diagrams adapted to your installation.
- Excellent post sales service.
- Personalized commercial or technical training intended for installers and distributors.
- Product presentations and training from our commercial team.

GENERAL

These general conditions shall apply to all contracts entered into by FERMAX UK Ltd. for the sale of goods and shall extend to any goods supplied in substitution or in addition to the contract goods.

No terms, conditions or reservations stipulated by the Buyer and no course of dealing shall annul, vary or add to any of these Conditions except in so far as expressly consented to by FERMAX UK in writing.

QUOTES

Prices are valid for 30 days from date of quotation.

ORDERS

Orders below £400 net will be subject to a carriage charge of £10.50.

DELIVERY

1. In the absence of any agreement to the contrary, the place of delivery shall be that of the Buyers premises and the risk in the goods shall pass to the Buyer on receipt of delivery.
2. FERMAX UK will, if the goods are damaged or lost in transit, at FERMAX UKs option, replace the damaged or lost goods free of charge or refund the cost, provided that notification is received from the Buyer within 7 days in the case of damage or loss.
3. Every endeavour will be made by the Company to adhere to the delivery dates quoted, but such dates are only estimated and are not guaranteed neither shall they be a term of condition between the Buyer and the Company.
4. The Buyer shall be responsible for arranging insurance on goods collected by their own carriers.
5. Delay in delivery shall by no means entitle the Buyer to cancel the order or thereby render FERMAX UK liable to the Buyer for any loss or expense arising from the delay unless otherwise agreed in writing.

OWNERSHIP OF GOODS

The goods shall remain the property of FERMAX UK until paid for in full by the Buyer.

CANCELLATION

Cancellation of any order or goods or any part of an order will not be valid after the Buyer has placed the order unless the cancellation is accepted by FERMAX UK in writing.

RETURNS

A detailed copy of our returns policy is available on request. In general; Material returns are not accepted, except for reasons directly attributable to FERMAX UK. Goods intended for return must obtain a returns number from FERMAX UK prior to their dispatch; the 'dispatcher' shall ensure where reasonably practical, that the product(s) are complete and in their original packaging.

- FERMAX UK reserves the option to supply direct replacements for faulty goods returned within warranty.
- Credits may be raised at the discretion of FERMAX UK or where direct replacements are not available.
- Shortages are to be notified to us within 14 working days.
- Refunds for incorrectly ordered products may incur a handling charge up to 25%.

PRODUCT WARRANTY

FERMAX guarantees its products against any manufacturing defects for a period of 2 years from the date of our original invoice. Products found to be defective due to incorrect handling or installation are excluded from warranty.

PAYMENT

1. Credit customers must settle accounts within 30 days nett of invoice date, unless otherwise specified by FERMAX UK.
2. There is a minimum charge of £10 made on each occasion any cheque rendered for payment is refused and requires representation.
3. FERMAX UK may charge interest on overdue accounts at Banco Sabadell S.A base rate plus 3% per annum from the due date for payment until the final date of payment.

CREDIT FACILITY LIMITATION

Where the situation arises that the value of an order exceeds the funding limit of an account, alternative methods of payment for the excess amount will be requested.

LIMITATION ON COMPANY'S LIABILITY

FERMAX UK will pass guarantees as extended by the manufacturer or manufacturers agent to the Buyer. FERMAX UK will not be responsible for any guarantee excess of these. Technical information or performance is supplied in good faith but the onus falls fully on the Buyer to determine that the equipment is usable for the application in question, and will work in conjunction with existing equipment.

JURISDICTION

Any contract entered into by FERMAX UK shall be governed and constructed under English Law and the Buyer shall submit to the jurisdiction of the English Court. Otherwise agreed in writing.

FERMAX reserves the right to modify these commercial conditions of sale, as well as the prices of the Products. The technical and aesthetic characteristics of the Products may be modified from time to time. The graphic representations included are merely for illustrative purposes. FERMAX ® is a registered trademark. All intellectual property and license rights reserved.
